

The ideal system to safely **disinfect**
your vehicle with no harmful chemicals!

Vehicles and transport

Rental vehicles, truck and HGV cabs, buses, taxis...

- **Chemical free**
- More efficient for surface disinfection
- **Certified 99.9999% effective on SARS-COV-2 responsible for Coronavirus**
- Complies with **AFNOR NF T72-281** standard for disinfecting surfaces by air, bacteria and viruses
- Powered from the in car 12 Volt cigarette lighter

How UV works

At a wavelength of 254 nanometres, UV-C inactivates micro-organisms (viruses, bacteria, algae, yeasts, moulds, etc.) by penetrating their DNA, thereby disrupting their metabolism until they are completely destroyed.

The benefits of BIO-SCAN®

- An ultra-fast processing time of **4 to 10 seconds!**
- **A practical, ergonomic and easy-to-use** concept for anyone
- **No chemicals**, no health or environmental risks
- Economic: reasonable acquisition price, quick depreciation
